

Establishment of Technical Training Centre at Plantsite

FFC Energy Limited in partnership with M/s Descon Power Solutions and M/s Nordex has established a Technical Training Centre (TTC) at Plantsite, Jhampir. The TTC is currently offering one year technician training program specific to operation & maintenance of wind turbines and associated electrical & auxiliary equipment.

TTC is currently operating as a CSR initiative and providing training to deserving youth of neighbouring community. First batch of 15 students have been inducted in TTC in November 2017.
