

FFCEL ACHIEVES DNV-GL CERTIFICATION

FFCEL have successfully achieved DNVGL certification. M/s DNV-GL, Germany is world's leading certification body and has developed its guideline namely DNVGL-SE0448 for certification of Service & Maintenance activities of Wind Power Plant. The process of certification has spanned over a year as FFCEL was covering the full scope of O&M including Head Office activities. FFCEL shall be the 2nd company of the world to receive full scope certification from DNV-GL giving it an extra edge over other O&M service providers in the sector. The certification is valid for 5 years with annual monitoring by DNV-GL and one review audit during the period. The certification has following multipronged benefits to FFCEL;

- Assurance to FFC Management & Shareholders that O&M activities by FFCEL comply with international standards.
- Competitive advantage in wind industry, Local/International, for provision of O&M Services thru OLIVE TS.
- Continual improvement of FFCEL O&M processes in compliance with international standards and best practices.
